WHY US?

Malcolm Hughes is one of the UK's largest and fastest-growing geospatial survey companies.

We deliver precision-driven surveying solutions, from detailed mapping to complex monitoring.

Our expertise ensures informed decision making and seamless project execution, to support safe and effective infrastructure.

Trusted by National Highways, Network Rail and Environment Agency amongst many others to deliver to the highest possible standards.

Industry professionals for over 40 years, validated by current industry accreditations.

Reliable geospatial consultants. With our years of experience and team of experts, we are perfectly placed to provide and advise on all forms of measured data.

- STRUCTURAL HEALTH MONITORING
- PLATFORM GAUGING
- STRUCTURE GAUGING
- 3D LASER SCANNING
- TRACK SURVEYS

Move forward with precision. Malcolm Hughes delivers precision-driven rail surveys, ensuring safety, efficiency, and compliance; with reliable data to keep rail projects on time and on budget. We implement our unique process of ESE (Early Survey Engagement) which endeavors to improve the quality, efficiency and sustainability of the outcomes for the client.

“ IN OUR CLIENTS WORDS ”

“Northern Ireland Railways engaged Malcolm Hughes through a competitive tender exercise to produce a topographical rail survey associated with the new Belfast Hub project...We found the team to be exceptionally well-experienced and highly adaptable to meeting our needs. The survey was of high quality and captured all the specific details of the track work and key trackside features. It was a pleasure working with Malcolm Hughes and we would be happy to recommend them to others.” **Richard Johnstone, Translink**

“Despite speaking to many survey companies synonymous and specialising in this type of work, Malcolm Hughes presented unique solutions to overcome the challenges and upon contract award their staff were professional, reliable, highly competent and a valued team member throughout the duration of their contract. I would have no hesitation in using Malcolm Hughes in the future.”

With offices in three central locations across the UK and surveyors across the entire country, we offer a **full nationwide coverage**. Trusted global land survey provider, having worked in America, Africa, Asia and across Europe, offering global coverage.

Part of **Ogilvie** Group

Established in 1953 - Turnover Circa 461m

The background of the top section is a photograph of a railway tunnel. The walls are made of dark, textured stone or brick. Several sets of railway tracks run through the tunnel, receding into the distance. On the right side, a surveying tripod is visible, suggesting a focus on precision and engineering.

Let's Talk.
